Welcome to LANL!

Hopefully you are getting settled in and are excited about your summer internship. This issue contains important information pertaining to students about programmatic reminders and security awareness. Also included is a schedule of the summer lecture series and a listing of many LANL student and community events. Make the most of your experience by participating in as many activities as you can. You will find that they will make your time here more rewarding. If you have any questions or concerns don't hesitate to call or stop by the Education and Postdoc Office. Have a great summer!

Kristin Patterson

Important Information For All Uncleared US Employees (Including Students)

To ensure current and future recipients of uncleared badges are only issued to US citizens, the Badge Office implemented citizenship verification procedures for uncleared US employees on May 14, 2007.

- **Current LANL employees (including students)** who have been issued an uncleared badge must show proof of citizenship at the badge office no later than **July 31, 2007 (If you have not shown proof of citizenship by this date, your badge will no longer be valid.)**
- **New LANL employees** must show proof of citizenship at the time of badging.

Proof of US citizenship includes an original photo identification card, such as a current and valid state driver's license, and an original of one of the following five documents:

- Birth certificate
- Certificate of Naturalization
- Report of Birth Abroad of a Citizen of the US
- US Passport, current or expired
- Record of Military Processing-Armed Forces of the US

The following link includes information about the citizenship verification for uncleared employees:

http://int.lanl.gov/security/documents/security-smart/verification5_07.pdf

It is imperative that you view this link to ensure that you will be in compliance with this new procedure.

Lab's Substance Abuse Policy Applies to Students

New and returning students should familiarize themselves with Laboratory's policies, including its enhanced substance abuse policy.

The Lab's substance abuse policy applies to all Laboratory employees, including students, and includes provisions for:

- Pre-employment drug testing for all new employees
- Random drug testing for all employees (**students who have been on casual status are included in this pool of employees**)
- Drug and/or alcohol testing based on a reasonable suspicion that the policy has been violated
- Drug and/or alcohol testing following an incident or accident that results in or has the potential to result in a serious injury

According to the policy, Personnel Security will notify employees selected for random testing. Workers who are on approved leave from the Laboratory will not be required to appear for a test on that day. A worker who fails to appear for a drug test will be treated in the same manner as if he or she had tested positive for an illegal drug. A positive drug test will result in disciplinary action up to and including termination.

The new policy – [IPP 732](#) – can be found on the [Policy Center Web page](#) and replaces the previous substance abuse policy (AM 110).

For additional information about the policy, contact Employee Relations at 7-8730.

Salary Increases for Returning Students

Students whose transcripts were received by the Education and Postdoc Office (EPDO) by the February 17th deadline may be eligible for a salary increase. Raises were effective May 14, 2007 or student return date. If your transcript was received by EPDO after the February 17 deadline, you may find that your salary increase is effective after May 14th.

The transcript submittal process includes an official transcript showing all coursework with fall grades '06 and spring '07 enrollment. If you have not submitted a transcript please do so immediately to:

Brenda Montoya
Los Alamos National Laboratory
PO Box 1663, M709
Los Alamos, NM 87545

Please Note:

Students who haven't submitted transcripts will not be changed to full time status and aren't eligible for the 9/80 schedule until transcripts are submitted to STB-EPDO.

Salaries for students working towards an Associate's degree are capped at the HS+2 level.

Students who are currently in post-baccalaureate or post-master's categories are not required to submit any type of documentation.

You can view the salary structure at <http://int.lanl.gov/education/>.

Salary Increases for Graduating High School Seniors

Salary increases and title changes for High School graduates (High School Co-ops) will be effective on June 4th. To ensure your salary increase and title change to "Undergraduate Student" you must submit a copy of your college acceptance letter to Brenda Montoya via fax, 5-6871. These students will be moved to UGS status, with a salary increase to \$8.85/hr.

Students who have not yet received their college acceptance letters will be changed to Post High School Status with a salary increase to \$7.96/hr effective 6/4/07. If you're in this category, remember to fax (5-6871) a copy of your college acceptance letter once you receive it to ensure your salary increase to the HS+0 level and your title change to "Undergraduate Student."

Student Internship Information

ARE YOU PROGRESSING THROUGH YOUR DEGREE PROGRAM?

Several questions have been asked regarding salary and how it relates to student progression in a degree program. This occurs most commonly for students at the HS+3 salary level.

The salary structure at this level states "Completion of Junior year and 72 cumulative credit hours in a degree program." The implication of this statement is that students have completed upper division courses that would enable them to be considered "completing their Junior year" with only a couple of semesters remaining to obtain their degree.

Some students, because they don't know what field they want to pursue (take a lot of different courses) or because they take remedial courses, accumulate over 72 credit hours of classes; however they haven't accumulated enough hours to have "completed their Junior year." In these cases, even though the student has the minimum required hours of 72 to meet the HS+3 level, the student's salary is not increased based on the "completion of Junior year" statement.

If you are in this situation and would like additional clarification, please contact Brenda Montoya at bmontoya@lanl.gov or by phone at 7-4866.

Minor's Restrictions

If you are a student under the age of 18, please make sure that your mentor reviews the Minor's Restriction Checklist. The checklist must be returned sent to Brenda Montoya at MS 709. The checklist can be found online at

http://int.lanl.gov/education/pdfs/Minors_Checklist.pdf

Student Workplans

All new, year-round and returning students are required to have a workplan each year. Workplans are initiated by your mentor. Workplans provide clear information about expectations and deliverables for your research/project. Check with your mentor if you have not seen your updated workplan. This documentation is critical and should be shared with you.

To view a copy of a sample workplan see the LANL Student Toolkit posted at http://int.lanl.gov/education/docs/student_toolkit_3-06-07.pdf

Post Baccalaureate and Post Master's Appointments

These categories offer college graduates the opportunity to participate in the Lab's student programs after receiving their degrees. Students are required to use this time to prepare for acceptance into a higher level degree program (i.e. take grad school exams, complete applications, etc). Students who aren't enrolled in a higher degree program at the end of their one-year appointment will have their appointments terminated.

Security Smart

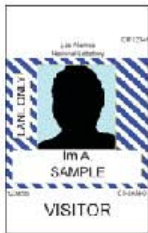

May 2007, V2

Security Awareness for Students

As a student you are a vital part of the workforce at LANL and are part of the Laboratory's effort to reduce security incidents. You must follow security policies and procedures.

SECURITY BADGES

You must wear your badge while on LANL property. Wear your badge conspicuously, photo side out, above the waist and on the front of the body. Remove your badge when off DOE/LANL property (e.g., restaurants, grocery stores, gas stations, etc.). Do not use your badge for unofficial purposes or identification purposes outside of Lab facilities. Report loss or theft of your badge as soon as possible - but within 24 hours or by the next business day- to the Badge Office at 667-6901.

ESCORTING

As escorts, escortees, and/or workers you must know your responsibilities for escorting uncleared in security areas. Escorts must follow LANL's escorting guidelines to avoid security incidents; maintain control of the ecorTEE at all times; and prevent unauthorized access to classified material. If you are an escortee, follow the instructions of your escort.

Security Smart: Escorting: <http://int.lanl.gov/security/documents/security-smart/escorting.pdf>

Escort Responsibilities Checklist: http://int.lanl.gov/security/personnel/escort/docs/escort_checklist.pdf

Badge Office Escorting Web Site: <http://int.lanl.gov/security/personnel/escort/>

VEHICLE ACCESS PORTALS (VAPs)

Vehicle access portals (VAPs) allow or restrict access into LANL property. VAPs are located on Jemez Road and the Pajarito corridor.

Access requirements differ for the VAPs on Jemez Road and the Pajarito corridor. At the Jemez Road VAPs, you do not need to present your badge. Simply stop at the booth and wait for an indication from the Protective Force officer to proceed.

At the Pajarito corridor VAPs, at least one person in a vehicle must have a LANL or DOE standard security badge (others over the age of 18 must have a valid photo ID such as a driver's license). All vehicle occupants must completely hand over their badges or IDs and wait for an indication from the Protective Force officer to proceed.

At any VAP, always follow the commands of the PTLA officer.

VAP Requirements: <http://int.lanl.gov/security/sec-con/post-reqs.shtml>

CONTROLLED AND PROHIBITED ARTICLES

Controlled Articles are those not permitted in a Lab security area (Limited Area, Exclusive Area, Protected Area or Material Access Area) without prior authorization. You may have personally controlled articles on LANL property outside security areas, but you cannot:

- take photographs on LANL property without permission from your Responsible Line Manager (RLM);
- connect the article to LANL computers or networks or;
- load sensitive government data on the article.

Prohibited Articles are those not permitted anywhere on LANL property. For more information, visit the Controlled/Prohibited Articles List: <http://int.lanl.gov/security/personnel/badge/prohibited.shtml>

Security Smart

May 2007, V2

PORTABLE ELECTRONIC DEVICES

All personally owned portable electronic devices (PEDs) with recording or transmitting capabilities are controlled at the Lab. They are allowed in non-secure areas. PEDs are NOT allowed in secure areas, and they are prohibited from being connected to Lab computing resources. The following are examples of PEDs:

- Cell phones and two-way pagers (If government-owned, batteries must be removed when entering a security area);
- Thumb drives, memory sticks, etc;
- iPods and MP3 players with data ports;
- stereos with cassette recorders;
- PDAs and calculators that can download data from a computer; and
- Laptop or hand-held computers.

Important Note: If you are unsure about a PED in your specific area, contact your RLM, Organizational Computer Security Representative (OCSR), or Deployed Security Officer (DSO).

COMPUTER SECURITY

You must be aware of the policies and procedures for protecting Lab unclassified information and computer resources: complete the required computer security training; follow Lab password guidelines; enable screensaver protections when you're away from your computer; and recognize when a cyber security incident has occurred and report it to your OCSR. Visit the websites below for more information:

- Cyber Security Web Site: <http://int.lanl.gov/security/cyber/>
- Chief Information Officer (CIO) Web Site: <http://int.lanl.gov/cio/>
- Cyber Security Incident Reporting Procedure: http://int.lanl.gov/cyber/docs/incident_reporting.pdf

OPERATIONAL SECURITY

You can do a number of things to ensure the Lab's operational security:

- Be aware of what you share about where you work and what you do.
- Shred sensitive and personal information.
- Be aware of what you doing and who is around you at all times.
- Lock your door when you leave your office.

Visit the Operations Security website for more information: <http://int.lanl.gov/security/isec/opsec.shtml>

Mentor Focus

Larry Pacheco

Larry W. Pacheco has worked at Los Alamos National Laboratory for 27 years, and has been involved in mentoring students for most of that period. Before it was officially called the Mentoring Program, it was “hands-on-training”, and the goal for each student was to have them qualified either as a radiation monitor, Health Physics technician, Radiation Protection Technologist, or currently as a DOE Radiological Control Technician (RCT). Most students were trained through his office, whereas they now go through training at the central training center in White Rock.

Of his past students, all have become qualified in the radiation protection field. One student became a medical doctor in Albuquerque, while another is currently attending medical school. Another individual has gone overseas to make special presentations, and several have hired on at the Laboratory as full-time employees, some of which became Technical Staff Members. The Health Physics Operations group, for which Larry works, is a stepping stone to other Lab groups, since most of his students are deployed to other areas of the Lab. There are three phases of the training, followed by a written exam and an oral board. The student must pass the exam with an 80% to establish proficiency then they must complete the oral board to become DOE qualified. The oral boards are difficult, so the student must be prepared and know the material to successfully complete the oral board. One of the most rewarding aspects of the mentoring program for Larry is to “see his students’ progress and become qualified”. Larry stated, “No one has failed the oral boards, and feedback has been very positive. My students have done an outstanding to excellent job.” Feedback from the oral board is very important to Larry because it helps to identify the weak points in the RP-1 RCT training program and therefore aids in improving the program.

Whereas it used to be more of a one-on-one training, there is now a training team involved. Management has always been very supportive of the mentoring program. Larry encourages his students to “be truthful and honest” with themselves, “and that way you won’t go wrong. Always strive to get better, because this will be your job.” It is important that each student has “a sense of direction”. The student knows what is involved with the program and what is expected of them. As a mentor Larry is honest with his students and defines the expectations required by RP-1. Larry holds individual students accountable for their actions and responsibilities.

Larry became a supervisor in 1993, and is currently available to be deployed anywhere in the world. He is a member of NNSA, the Radiological Assistance Program (RAP), and the Accident Response Group (ARG). Though he hasn’t gone outside the US, he has attended training exercises in various areas of New Mexico and the US. According to one of his former students, Larry has outstanding leadership skills and instills this type of excellence in his students as well. Larry is a plethora of knowledge at the lab and is always willing to help with any questions or information that might be needed. He actively participates with his students in and shows them the proper way of performing their job at Los Alamos. He always emphasizes attention to detail and has everything in place and well organized. According to Larry, “There is nothing like hands-on training. Don’t get me wrong, education is very essential, but hands-on training is where the rubber meets the road”.

Thanks Larry, for being such a good example for your students – they are accomplished in a large part due to your expertise and training, and your concern for their successful completion of the program.

Wellness Center Student Breakfast

Wednesday May 23, twenty-four students attended a student breakfast and orientation at the Wellness Center located at TA-3.

Sue Bachmeier presented students with a video, gave a tour of the facilities, and answered any questions students had about the Wellness Center. Some of the important information stressed in the orientation included, user safety, utilizing the Wellness Center staff and facilities, and rules and common courtesy practices pertaining to the use of equipment.

The Wellness Center is open Monday through Friday.
Monday through Thursday: 5:30 a.m. - 7:30 p.m.
Friday: 5:30 a.m. - 7:00 p.m.

For more information on the Wellness Center please visit their website below.

<http://int.lanl.gov/health/wellness/index.shtml>

Mandatory 2007 Student Meeting with the Director

The annual All Student Meeting with the Director is scheduled for **Thursday, June 21 from 2:00-3:00 at the Duane Smith Auditorium at Los Alamos High School.**

This is a mandatory meeting for ALL STUDENTS, so please be sure to schedule accordingly.

Los Alamos High School is located at 1300 Diamond Drive. For more information, contact the STB-EPDO Program at 665-8899.

SA Nominations

Hello Students!

Summer is here and the SA Executive Council has been very busy planning exciting events and activities for all LANL students. We hope you've had a chance to attend a few and there will be many more to come! Hopefully this has sparked some feedback, curiosity about us and some interest in getting involved.

Every summer, a new group of SA officers are elected from the student body. All year-round students, UGS or GRA, are eligible to hold office, whether you have been at the Lab for a couple weeks or several years. On behalf of SA Exec, I encourage you to run, as this is an excellent opportunity to get to know the Lab and Student Programs, work with dedicated and enthusiastic people and gain valuable leadership experience. Nominations are due Thursday June 14th and an informational session will be held very soon. In the meantime, please visit our website at <http://sa.lanl.gov> to learn more about us, and feel free to email me at kcha@lanl.gov if you have any questions.

Mahalo,

Kitty Cha
SA Vice-Chair

Mondays at the Dix

On Monday evenings from June 4-August 20, the United Church is sponsoring a free picnic-style dinner followed by volleyball. Summer students are invited to participate, to meet other students, and to become acquainted with some local people. The event will begin at 5:30 and will wind down between 7 and 7:30.

The United Church is located at the corner of Central and Canyon Road in Los Alamos (near the Aquatic Center). The volleyball area is on the west end of the parking lot.

UPCOMING LANL STUDENT EVENTS

Students' Association Student-Mentor Picnic at Urban Park

The 2007 Student-Mentor Picnic will be held on July 12 at Urban Park from 11-2p.m. There will be food, drinks, music, and other entertainment will be provided.

Bring your mentor along and take a break from the lab or office to meet new people and enjoy the fresh air.

Symposium 2007

Symposium is scheduled for August 1-2, 2007 and will be held at the University of New Mexico-Los Alamos. Symposium is an event that showcases student research and projects. This is an exciting event and we hope you will participate.

Website: <http://www.lanl.gov/education/symposium/>

Stay posted for more information regarding Symposium.

Los Alamos County Summer Concert Series

Friday, June 8-7 p.m. Chamber Fest on Central Ave. featuring *Tim Reynolds*-Rock music master with opening act *Erica Luckett*

Saturday, June 9-11-2 Chamber Fest on Central Ave. featuring *The Hudsons*-Folk Rock

Friday June 15 *Jonathon Edwards*-70's Folk Rock at Ashley Pond

Sunday June 17 Father's Day Concert featuring *Brave Combo*-Dance Party at Ashley Pond

Friday June 22 *The Nomads*-50's and 60's Classic Rock and Rockabilly at Ashley Pond

Now Showing

The following movies will be showing at the Reel Deal Theater the week of June 7-June 14. Movie times and updated information can be found at <http://www.reeldealtheater.com>.

Pirates of the Caribbean: At World's End

Ocean's Thirteen

Surf's Up

Knocked Up

Coming Soon:

Fantastic Four 6/15

Ratatouille 6/29

Don't forget about "Reel Deal Tues." where every show, every show time is \$5

Kayaking

Tuesday nights from 8:15-9:15 at the Larry Walkup Aquatic center for \$4.50 per person

Wednesday nights from 7:30-9:00 at the Genoveva Chavez Center in Santa Fe for \$7.00 per person

Gear can be borrowed at both locations although it is easier to borrow in Los Alamos. If you are interested in kayaking and need to borrow gear contact Greg Goddard in advance to guarantee a boat, paddles, etc. Greg leads kayak trips on the weekends down local rivers and can be contacted by e-mail at quantmmech@yahoo.com or during the day by phone at 665-0437 if you would like to participate.

Salsa Dancing

Mondays at the White Rock Community Center

Lessons are free!

Salsa Lesson from 8:00-9:30 p.m.
Practica from 9:30 to 10:00

For more information contact Darrin ddawgncc@comcast.net (661-8599), or Maria at maria_i_p@yahoo.com (663-1047)

Summer Lectures

2007 Summer Lecture Series

Organized by MPA Division, LANL Institutes and LANL Student Association

Our summer lecture series is open to all Los Alamos National Laboratory badge holders and is specifically designed to allow new students, postdoctoral researchers and staff meet the best and brightest among LANL scientists. In the course of 18 talks and site visits participants will have a unique chance to see the facilities and learn about LANL directly from our top scientist. Refreshments will be served. We look forward to meeting you there!

2007 PROGRAM

Monday June 04

Venue: Research Park, Room 203 A/B

1PM - 2PM Gordon Jarvinen (ADSMS) Nuclear Fuel Cycles and the Global Nuclear Energy Partnership

2PM - 3PM Rajan Gupta (T-8) Cheap Clean Energy in the 21st Century

Wednesday June 06

Venue: MSL Auditorium

1PM - 2PM Bryan Pivovar (MPA-11) Fuel Cells as Part of a Clean Energy Future

2PM - 3PM John Sarrao (MPA-DO) What Does Plutonium Have to do With Superconductivity?

Friday June 08

Venue: LANSCE - Lujan Center

10AM - 11AM Jim Rhyne (LANSCE-LC) What's Cool About Neutron Scattering

11AM - 12PM **Tour of LANSCE**

Monday June 11

Venue: Research Park, Room 203 A/B

1PM - 2PM Andy Shreve (CINT) Nano-bio: Materials Science Inspired by Biology

2PM - 3PM Helen Cui (N-4) Biotechnology in Biothreat Defense

Wednesday June 13

Venue: Research Park, Room 203 A/B

3PM - 4PM Toni Taylor (CINT) Presentation of CINT

4PM - 5PM Tour of CINT (venue change to CINT)

Friday June 15

Venue: MSL Auditorium

10AM - 11AM Paul Follansbee (MST-DO) Materials at LANL: Foundations and Futures

11AM - 12PM Alan Bishop (ADTSC) Functional Complexity in Materials: Foundations and Futures

Monday June 18

Venue: MSL Auditorium

1PM - 2PM Anna Llobet-Megias (LANSCE-LC) Application of Neutron Scattering to Material Science

2PM - 3PM Rob Hixson (DE-DO) Destructive Testing at it's Finest; Fundamental Data from Chaos

Wednesday June 20

Venue: MSL Auditorium

1PM - 2PM Victor Klimov (C-PCS) Nanocrystal Quantum Dots - Photophysics and Optical Applications

2PM - 3PM Alan Hurd (LANSCE-LC) Our Obligations Toward the Scientific Community

Friday June 22

Venue: Magnet Lab

10AM - 11AM Alex Lacerda (MPA-NHMFL) High Magnetic Field Research: Science & Engineering Perspective

2PM - 3PM Magnet Lab Tour

Monday June 25

Venue: MSL Auditorium

1PM - 2PM Vivien Zapf (MPA-NHMFL) High Magnetic Fields and Quantum Magnetism at the National High Magnetic Field Laboratory

2PM - 3PM Dave Clark (Seaborg Institute) Issues Surrounding Plutonium

contact: tomasz@lanl.gov

NOTE: current updated program available at: <http://lirt.lanl.gov/orgs/mpa/>

June 2007

SCHEDULE OF EVENTS

For more information about community events please see the Los Alamos Visitor's Website at www.visitlosalamos.com

Black denotes LANL events

Green denotes Community events

If there are events you would like to include in the calendar please contact Kristin Patterson at 665-6346 or e-mail at kpaterson@lanl.gov

- **June 4-Aug 20**– “Monday at the Pit” volleyball and picnic from 5:30-7:30 at the United Church of Los Alamos, located at the corner of Canyon and Central
- **June 6**– LAAC Brown Bag Performance Series: Celtic Music and Dance, 12-1, Pajarito Room at Fuller Lodge. Admission is free.
- **June 7**-Outdoor Farmer's Market, Every Thursday, 9:30-1, Fuller Lodge
- **June 7**– Free Film Series: (Bacheha-Ye aseman) Children of Heaven, 6:30 p.m., Mesa Public Library. For more info see www.lac-nm.us
- **June 7**-Bandelier Event-Interpretive Nightwalk (every Thursday at sunset). Reservations required, \$6 for adults. For more info see www.nps.gov/band.
- **June 8**– Los Alamos Neutron Science Center (LANSCE) Talk and Tour, 10-12ish in the Lujan Auditorium at the Lujan Center TA-53
- **June 12**– Trinity Beverage Company-Students' Association Question and Answer time for interested SA officer applicants
- **June 20**– Wellness Center Tour with continental breakfast, 8:30 a.m. (limited to 30 students-RSVP required)
- **June 21**– Winning Resume Workshop for undergraduates, 9-11:30 a.m., Canyon Complex, Room 165
- **June 21**– All-Student Meeting with the Director , 2 p.m. at Duane Smith Auditorium-Los Alamos High School
- **June 22**-High Magnet Field Lab (NHMFL) Talk and Tour, 10 am at the Magnet Lab TA-35
- **June 23**-Run the Caldera Marathon, 7:00 a.m., Valles Caldera National Monument. For more info see website www.vallescaldera.gov
- **June 26**-MSTea and Cookies with Kitty Cha at the MSL Meeting Place (TA-3, SM-1698)

July 2007

For more information about community events please see the Los Alamos Visitor's Website at www.visitlosalamos.com

Black denotes LANL events

Green denotes Community events

If there are events you would like to include in the calendar please contact Kristin Patterson at 665-6346 or e-mail at kpat-terson@lanl.gov

SUN	MON	TUE	WED	THU	FRI	SAT
